Detailed Office Action

37 C.F.R. § 1.114

A request for continued examination under 37 C.F.R. § 1.114, including the fee set forth in 37 C.F.R. § 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 C.F.R. § 1.114, and the fee set forth in 37 C.F.R. § 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 C.F.R. § 1.114. Applicants' submission filed on 05 April, 2006, has been entered.

Status of the Claims

Claims 1, 4, 6, 19, 21, 31, 36, 38, 39, and 59-88 are pending in the instant application.

37 C.F.R. § 1.98

The information disclosure statements filed 24 April, 2003, and 05 April, 2006, have been placed in the application file and the information referred to therein has been considered.

35 U.S.C. § 112, Second Paragraph

The previous rejection of claims 1, 3, 4, 6, 19-21, 31, 36-39, 52, 53, and 55 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, is hereby withdrawn in response to applicants' amendment.

35 U.S.C. § 103(a)

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. § 103(c) and potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103(a).

The previous rejection of claims 1, 3, 4, 6, 19-21, 31, 36-39, 52, 53, and 55, under 35 U.S.C. § 103(a) as being unpatentable over Bolognesi et al. (1996) in view of Tolman et al. (1993), and further in view of Patrick et al. (1987), is hereby withdrawn in response to applicants' amendment.

35 U.S.C. § 101

The following is a quotation of 35 U.S.C. § 101 which reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter or any new and useful improvement thereof, may obtain a patent

therefore, subject to the conditions and requirements of this title.

Claims 59 and 60 are rejected under 35 U.S.C. § 101 because the claimed inventions are directed toward non-statutory subject matter. The claims specify that the peptide-albumin conjugates are present in human blood and are therefore inseparable from the human itself. The scope of the claim therefore encompasses a human being which is non-statutory subject matter. See 1077 O.G. 24, April 21, 1987.

Allowable Subject Matter

Claims 1, 4, 6, 19, 21, 31, 36, 38, 39, and 61-88 appear to be free of the prior art and are allowable.
